## JETBLUE FINDS THIS OFFENSIVE

### IT'S NOT JUST A MATTER OF RESPECT

Many Crewmembers have proudly served in the US Marine Corp, where tattoos are common. Yet, JetBlue policy does not allow them to roll up their sleeves in the summer heat.

This policy must change.

Please join us in asking JetBlue to exempt those with a cultural tradition of tattoos, members of the military, and those who do not normally deal directly with passengers from the requirement to always keep tattoos covered.
